ALMONARD

HEAVY DUTY EXHAUST FANS

300, 380 &
450 mm only
Single Phase

Totally enclosed, continuously rated motor

Every Almonard Exhaust Fan features a capacitor start and run type motor, continuously rated, totally enclosed and ruggedly built.

Designed specifically for the purpose, the motor has prelubricated double ball bearing and is provided with Class 'A' and 'E' insulation. The end result is a smooth, silent motor that lasts longer and delivers the maximum output at lower operating cost.

Dynamically balanced impeller

The impeller used in an Almonard Exhaust Fan is of the propeller type. And since both hub and impeller are dynamically balanced and frames and arms mounted on rubber bushings, vibrations are virtually eliminated.
